This course deals with the determinants and spatial patterns of economic and human development and inequality and the relationship between development and poverty and inequality. Two major questions addressed in the course are: (a) What are the major determinants of the growth of regions/countries? (b) How does the distribution of economic activity within and across countries and regions arise and develop?

*Course material:* Policy, European Commission and (working) papers in economics; ‘Economic Development (13th edition)’ by Todaro, M.P. & Smith, S.C. (2020), Pearson.
